

Get More Leads, Increase Sales.

How many times have you heard “**I just ran out business cards**” or “**I don’t want to fill out another form or carry another brochure**”. Here is the tool to help you overcome those reasons for not getting the information you need from your potential customers!!

Your sales force will be more effective, meet more potential clients and be able to follow-up with those important leads after the show! This will ensure your tradeshow investment.

Choose the lead scanner that best suits your needs and budget.

Hand-held, battery operated scanner

Handiscan - This lead retrieval unit is a small, (the size of a stopwatch) fast scanning, battery-powered unit. It holds over 500 leads and captures only contact information. The exhibitor will receive their leads in comma-separated text and an excel .csv via your email within 1 business day after the event. This information is importable into most any popular database program. This scanner is perfect for the exhibitor on a budget that wants to collect contact information from the attendees that visit their booth in a fast and efficient way.

Only conference attendees will have bar-coded badges. General public will not be badged.

Preshow Rental Price = \$65.00

Pre-show Price expires on April 24, 2009

Onsite Rental Price = \$95.00

Don't delay, ORDER today!
